

Mason Mitchell

mmitchell7@tulane.edu | (424)-413-6200 | <https://github.com/masonmemelord> | Los Angeles, CA

EDUCATION:

Tulane University, New Orleans, Louisiana

Bachelor of Science in Computer Science & Information Technology

Expected May 2028

PROFESSIONAL EXPERIENCE:

Hidden Genius Youth Educator: Inglewood, California

March 2022 - Present

Senior Youth Educator

- **International Program Ambassador:** Represented the organization in London for Black Tech Fest to increase outreach and technical advocacy.
- **Technical Instruction:** Leading workshops for 100+ students on full-stack development, covering Python, CSS, and HTML
- **Community Development:** Collaborated with the Compton Girls Club to design and implement community engagement projects

Tulane Center for Intercultural Life: New Orleans, LA

September 2025 - Present

- **Operations Leadership:** Coordinating semester-long programming by managing resource allocation, scheduling, and cross-departmental communications.
 - **Public Relations:** Reached 400+ stakeholders per semester through targeted outreach and campus representation.
 - **Administrative Management:** Directing front-of-house operations to ensure efficient visitor assistance and a professional office environment.
-

TECHNICAL PROJECTS:

Greenbase: AI Cell-Detection App | Typescript, Python, YOLOv8, Roboflow

- Architecting a fullstack AI-driven application using YOLOv8 for real-time biological cell detection.
- Optimizing model precision and processing efficiency for large-scale image datasets.
- Developed custom Python scripts for data preprocessing and model training visualization

Auditorials: Music History & Newsletter Platform | React, TypeScript, Node.js, Firebase

- Architecting a music history and newsletter website.
- Optimizing model precision and processing efficiency for large-scale image datasets.
- Developed custom Python scripts for data preprocessing and model training visualization

UNIX Systems & Networking: C, Shell Scripting

- Developed a command-line interpreter in C featuring process management, I/O redirection, and background execution.
 - Implemented robust error-handling and signal-processing logic to manage concurrent child processes and prevent resource leaks.
 - Designed socket-based communication protocols to facilitate data transfer between client and server environments.
-

TECHNICAL SKILLS:

- **Languages:** Python, Java, C++, C, JavaScript, TypeScript, HTML/CSS, SQL
- **Frameworks & Libraries:** React, NodeJS
- **Tools & Platforms:** Vercel, Firebase, Cloudflare, GitHub, Git, UNIX Environments
- **Database/Backend:** Firebase, Roboflow
- **Technical Tools:** GitHub, YOLOv8n (Computer Vision), Jupyter Notebooks
